Summary

Cattle and Cattle on Feed: Final Estimates by State, 1999-2003, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 989.

Introduction: This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 1999 through 2003. Cattle inventory and calf crop, inventory by class, monthly cattle on feed numbers, and annual estimates of cattle on feed were published during calendar years 1998-2003 in periodic ASB reports. Data included in this publication provide a historic record and a benchmark for current estimates. The number of livestock operations and inventory by size groups will be published in Livestock Operations - Final Estimates 1998-2002, Statistical Bulletin 1002. Inventory values and value per head will be published in the Meat Animals, PDI - Final Estimates 1998-2002, Statistical Bulletin No. 995.

Procedures: Revisions were made after a thorough review of the original survey data and all additional data now available, including the 2002 Census of Agriculture. Other data series considered included slaughter, exports, and imports. The relationship between inventory levels, calf crops, death loss, exports and slaughter were compared to historic totals. The 1999-2003 estimates shown herein are considered final and will not be revised again.

¹ Number of feedlots is the number of lots operating at anytime during the year. Inventory is the number on hand January 1 of the following year. The United States totals show the actual number of feedlots, inventory, and number of animals marketed in each size group. The sum of the numbers shown by States under a specified size group may or may not add to the United States total for that size group since some States size groups are combined to avoid disclosing individual operations. Inventory is the number on hand January 1 of the following year.

² Lots, inventory, and marketings from other size groups are included to avoid disclosing individual operations.
