## Final Estimates 1992-97

# USDA

**Crop Values:** Final Estimates by States, 1992-97, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 963.

**Introduction:** This publication presents final marketing year average (MYA) prices received by farmers and value of production for most U.S. field crops, fruits, and vegetables for 1992-97. Data included in this publication provide an historic record and a benchmark for current estimates.

**Procedures:** Some value of production estimates have been revised slightly since they last appeared in Agricultural Statistics Board releases. These revisions resulted from field crop, fruit, or vegetable production estimates being revised for the period 1992-97 due to additional survey or administrative data now available, including the 1997 Census of Agriculture. Most MYA prices for the period 1992-97 have not changed since last published in Agricultural Statistics Board publications.

**Definitions:** All prices in this report are marketing year average (MYA) prices which do not include allowances or adjustments for: commodities under government loan at the end of the marketing year; commodities forfeited to the Commodity Credit Corporation; or crop deficiency and disaster payments.

Each State MYA price is based on sales in the months comprising its marketing year, while United States marketing year averages are based on sales during the standard U.S. marketing year for each crop.

United States MYA prices for most crops are computed by weighting State MYA prices by the estimated quantity sold in each State. The exceptions are for corn, sorghum, oats, barley, wheat, rice, soybeans, flaxseed, sunflower, and upland cotton which are computed by weighting U.S. monthly prices by monthly marketings for the U.S. marketing year (see table below). State MYA prices for these monthly crops are computed by weighting monthly prices by the monthly percentages of total sales during their marketing year. State MYA prices for crops not in the monthly price program are based on annual surveys.

State value of production is computed by multiplying each State price by its production. Value of production for the United States is the sum of State values for all States listed for the crop. Value of production estimates in this report relate to the crop year. These estimates should not be confused with cash receipts, which relate to sales during a calendar year irrespective of the year of production.

Crop	U.S. Marketing Year
Wheat, Oats, Barley	Jun thru following May
Flaxseed	Jul thru following Jun
Upland Cotton, Rice	Aug thru following Jul
Corn, Sorghum Grain, Soybeans, Sunflower	Sep thru following Aug

**Historic Estimates:** Final estimates of Crop Values in earlier years are available in Statistical Bulletins No. 903 for 1987-92, No. 818 for 1982-87, No. 729 for 1978-82, No. 659 for 1974-78, No. 597 for 1969-74, No. 513 for 1964-69, No. 404 for 1959-64, No. 311 for 1954-59, No. 208 for 1949-54, and No. 115 for 1944-49. **Farm Production, Farm Disposition and Value of Specified Field Crop**, released March 1948 covered the period 1939-44.

**Other Statistical Bulletins:** The National Agricultural Statistics Service has issued a series of twenty bulletins in 1998-99 containing final estimates for agricultural commodities based on the review of the 1997 Census of Agriculture and other information. The product number, bulletin title, and release dates are as follows.

**Electronic Publications:** These bulletins will be available free of charge on the Internet from the NASS Home Page at: <http://www.usda.gov/nass/>, in either text or PDF format. From the Home page select "Historic Data," then "Statistical Bulletins."

**Internet Published Estimates Data Base:** Selected historical State and U.S. information is now available in an online data base via the Internet free of charge. County information will be available by mid 1999. The database allows custom extracts based on commodity, year, state and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Home page at: <http://www.usda.gov/nass/>.

**Printed Copies:** Printed copies of the bulletins may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779. Costs for printed copies of the publications range from \$15.00 to \$20.00. Visa, MasterCard, check, or money order are acceptable for payment.

**Agricultural Census Publications:** The Volume 1, Geographic Area Series publication containing the United States Summary provides National data and selected data for each State. Separate State reports present statistics for the entire State and each county. Census reports cover the 1997 production year, with comparative data for earlier census years. The 1997 Census of Agriculture Geographic Area Series products, including all manipulable data files and Adobe Acrobat (PDF) files of the printed reports, will be available on March 20, 1999 via the Internet at <http://www.usda.gov/nass/>. The information is also available on CD-ROM, and in printed publications. Printed copies of the Census publications and CD-ROM's may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779.

**Assistance:** For more information pertaining to this bulletin, call the Crops Branch at (202) 720-2127. For assistance with general agricultural statistics or further information about NASS or its products and services, contact the **Agricultural Statistics Hotline** at 1-800-727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@nass.usda.gov](mailto:nass@nass.usda.gov).
