

Washington, D.C.

Released September 29, 2009, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on Agricultural Prices see page 43, office hours 7:30 a.m. to 4:00 p.m. ET.

## September Farm Prices Received Index Unchanged From Last Month

The preliminary All Farm Products Index of Prices Received by Farmers in September, at 127 percent, based on $1990-92=100$, was unchanged from August. The Crop Index is down 3 points ( 2.0 percent) and the Livestock Index decreased 1 point ( 0.9 percent). Producers received higher prices for milk, onions, grapes, and apples and lower prices for wheat, soybeans, barley, and potatoes. In addition to prices, the overall index is also affected by the seasonal change based on a 3 -year average mix of commodities producers sell. Increased monthly marketings of soybeans, corn, apples, and peanuts offset decreased marketings of cattle, broilers, wheat, and grapes.

The preliminary All Farm Products Index is down 27 points (18 percent) from September 2008. The Food Commodities Index, at 126, increased 1 point ( 0.8 percent) from last month but decreased 25 points ( 17 percent) from September 2008.

## Prices Paid Index Unchanged

The September Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) is 176 percent of the 1990-92 average. The index is unchanged from August but 14 points ( 7.4 percent) below September 2008. Lower prices in September for complete feeds, mixed fertilizer, herbicides, and feeder cattle offset higher prices for concentrates, LP gas, feeder pigs, and potash \& phosphorus.

## Prices Received by Farmers

The September All Farm Products Index is 127 percent of its 1990-92 base, unchanged from the August index but 18 percent below the September 2008 index.

ALL CROPS: The September index is 144, down 2.0 percent from August and 17 percent below September 2008. Index decreases for oil-bearing crops, food grains, feed grains \& hay, and potatoes \& dry beans more than offset the index increases for fruits \& nuts, commercial vegetables, and cotton.

Food Grains: The September index, at 154, is 8.3 percent below the previous month and 38 percent below a year ago. The September all wheat price, at $\$ 4.30$ per bushel, is down 53 cents from August and $\$ 3.13$ below September 2008.

Feed Grains \& Hay: The September index is 144, down 4.0 percent from last month and 34 percent below a year ago. The corn price, at $\$ 3.32$ per bushel, is down 1 cent from last month and $\$ 1.69$ below September 2008. The all hay price, at $\$ 107$ per ton, is down $\$ 2.00$ from August and $\$ 54.00$ from last September. Sorghum grain, at $\$ 5.16$ per cwt, is 21 cents below August and $\$ 2.83$ below September last year.

Cotton: The September index, at 80, is up 1.3 percent from August but 21 percent below last year. The September price, at 48.4 cents per pound, is up 0.7 cent from the previous month but 12.7 cents below last September.

Oil-Bearing Crops: The September index, at 160, is down 17 percent from August and 10 percent lower than September 2008. The soybean price, at $\$ 9.85$ per bushel, decreased 95 cents from August 2009 and September 2008.

Fruits \& Nuts: The September index, at 152 , is up 7.0 percent from August but 3.8 percent lower than a year ago. Price increases for apples, oranges, grapes, and grapefruit more than offset price decreases for peaches and pears.

Commercial Vegetables: The September index, at 154, is up 2.7 percent from last month but 12 percent below September 2008. Price increases during September for onions, cucumbers, lettuce, and snap beans more than offset price declines for sweet corn, tomatoes, and cauliflower.

Potatoes \& Dry Beans: The September index, at 137, is down 17 percent from last month and 13 percent below September 2008. The all potato price, at $\$ 7.65$ per cwt, is down $\$ 1.96$ from August and down $\$ 1.00$ from last September. The all dry bean price, at $\$ 30.90$ per cwt, is down $\$ 1.10$ from the previous month and $\$ 5.90$ below September 2008.

LIVESTOCK \& PRODUCTS: The September index, at 108, is 0.9 percent below last month and down 19 percent from September 2008. Compared with a year ago, prices are lower for milk, cattle, hogs, eggs, broilers, turkeys, and calves.

Meat Animals: The September index, at 103, is down 1.0 percent from last month and 17 percent lower than last year. The September hog price, at $\$ 37.80$ per cwt, is up 40 cents from August but $\$ 14.80$ lower than a year ago. The September beef cattle price of $\$ 80.80$ per cwt is up 20 cents from last month but $\$ 13.40$ lower than September 2008.

Dairy Products: The September index, at 97, is up 5.4 percent from a month ago but 30 percent lower than September last year. The September all milk price of $\$ 12.70$ per cwt increased 70 cents from last month but is down $\$ 5.50$ from September 2008. The fluid grade milk price is up 70 cents and the manufacturing grade milk price increased 60 cents from the previous month.

Poultry \& Eggs: The September index, at 129, is down 3.0 percent from August and 13 percent below a year ago. The September market egg price, at 56.8 cents per dozen, decreased 1.1 cents from August and is 29.3 cents below September 2008. The September broiler price, at 42.0 cents per pound, is down 1.0 cent from August and 3.0 cents below a year ago. The September turkey price, at 48.3 cents per pound, is down 2.8 cents from the previous month and 18.1 cents from a year earlier.

${ }^{1}$ Beginning in March 2009, Utah was added and Kentucky removed from the monthly milk price and quarterly milk cow price programs. The U.S. prices and fat test percents for fluid and all milk include Utah and exclude Kentucky beginning in January 2008.
${ }^{2}$ Entire month.
${ }^{3}$ Including milk diverted to manufacturing.
${ }^{4}$ IN no longer published due to insufficient manufacturing grade milk volume.
${ }^{5}$ Before deductions for hauling. Includes quality, quantity, and other premiums. Excludes hauling subsidies.
${ }^{6}$ Preliminary.
${ }^{7}$ Animals sold for dairy herd replacement only. Prices published January, April, July and October.

Parity Price Equivalent for Manufacturing Grade Milk ${ }^{1}$ : United States,
August and September 2009, with Comparisons

| Item | Unit | Sep 2008 | Aug 2009 | Sep 2009 |
| :--- | :--- | ---: | ---: | ---: |
| Parity Equivalent | Dollars per Cwt | 46.50 | 41.90 | 41.60 |
| Average Price F.O.B | Dollars per Cwt | 17.50 | 11.30 | 11.90 |
| Average Fat Test of Milk | Percent | 3.95 | 3.81 |  |

${ }^{1}$ The parity price equivalent during 2009 is 93.2 percent of the parity price of all milk sold to plants, compared with 92.4 percent in 2008. For additional details, see January 2009 issue of Agricultural Prices.

${ }^{1}$ Parity prices are computed under the provisions of Title III, Subtitle a, Section 301 (a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948,1949 , and 1956. See January "Agricultural Prices" for details on adjusted base price and parity price computations.
${ }^{2}$ Seasonally adjusted price as percentage of parity price.
${ }^{3}$ Wholesale extracted. Adjusted base price derived from state annual averages prices weighted by production. For 1982 through 1985 the national averages are the support prices.
${ }^{4}$ Equivalent packinghouse-door returns for CA, NY (apples only), OR (except peaches), and WA. Price at point of first sale for other states.
${ }^{5}$ Not available.

Parity Prices for Farm Products, September 2009, United States ${ }^{1}$

${ }^{1}$ Parity prices are computed under the provisions of Title III, Subtitle a, Section 301 (a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948, 1949, and 1956. See January "Agricultural Prices" for details on adjusted base price and parity price computations.
${ }^{2}$ Equivalent packinghouse-door returns for CA, NY (apples only), OR (except peaches), and WA. Price at point of first sale for other states.
${ }^{3}$ Equivalent returns for bulk fruit at first delivery point.
${ }_{5}^{4}$ Equivalent returns at processing plant door.
${ }^{5}$ Equivalent returns at packinghouse door.
${ }^{6}$ Includes some processing.
${ }^{7}$ Based on "as sold" prices for fresh fruit in all states.
${ }^{8}$ Prices in-shell basis except almonds which are shelled basis.
${ }^{9}$ F.O.B. shipping point prices.

## Marketing Year for Specified Commodities

Corn for Grain: September 1 to August 31 for U.S.; July 1 to June 30 for Texas; August 1 to July 31 for Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, and Tennessee; September 1 to August 31 for Arizona, California, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Missouri, Nebraska, New Mexico, Ohio, Pennsylvania, South Dakota, Virginia, and West Virginia; October 1 to September 30 for all other States.

Potatoes: The marketing year extends over a 21 month period beginning in November preceding the specified crop year and extending into July the following year. November (previous year)-May for winter crop potatoes; April-August for spring crop potatoes; June-December for summer crop potatoes; July-July (following year) for fall potatoes.

Sorghum for Grain: September 1 to August 31 for U.S.; June 1 to May 31 for Texas; August 1 to July 31 for Alabama, Arkansas, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Tennessee; September 1 to August 31 for all other States.

Soybeans: September 1 to August 31 for U.S.; July 1 to June 30 for Texas; August 1 to July 31 for Louisiana and Mississippi; September 1 to August 31 for all other States.

Austrian Winter Peas: July 1 to June 30 for U.S.; Idaho, Montana, and Oregon.

Dry Edible Peas: July 1 to June 30 for U.S.; Idaho, Montana, North Dakota, Oregon, and Washington.
Lentils: July 1 to June 30 for U.S.; Idaho, Montana, North Dakota, and Washington.

${ }^{1}$ Monthly farm marketings, based on a sample survey, as a percent of total used for calculating marketing year average prices.

## Reliability of Prices Received Estimates

Definition: Prices received represent sales from producers to first buyers. They include all grades and qualities. The average commodity price from the survey multiplied by the total quantity marketed theoretically should give the total cash receipts for the commodity.

Survey Procedures: Primary sales data used to determine grain prices were obtained from probability samples of about 2000 mills and elevators. These procedures ensure that virtually all grain moving into commercial channels has a chance of being included in the survey. Generally, States surveyed account for 90 percent or more of total U.S. production. Livestock prices are obtained from packers, stockyards, auctions, dealers, and market check data from AMS-USDA, private marketing organizations, and state commodity groups and agencies. Inter-farm sales of grain and livestock are not included since they represent very small percentages of the total marketings. Grain marketed for seed is also excluded. Fruit and vegetable prices are obtained from sample surveys and market check data from AMSUSDA, private marketing organizations, state agencies, and universities.

Summary and Estimation Procedures: Survey quantities sold are expanded by strata to state levels and used to weight average strata prices to a state average. State prices are then weighted to a U.S. price based on expanded marketings. Recommendations are prepared by the State Field Offices and reviewed by the Agricultural Statistics Board in Washington, D.C. State recommendations are reviewed for reasonableness with survey data, other States, and recent historic estimates.

Revisions: For most items, the current month's preliminary price represents a 3-5 day period around the 15 th of the month. Previous month's prices represent actual dollars received for quantities sold during the entire month. Revisions are published in monthly issues of Agricultural Prices.

Reliability: U.S. price estimates based on probability surveys generally have a sampling error of less than one percent for the major commodities such as corn, wheat, soybeans, cotton, and rice. Current methods of summarization for nonprobability commodities are not designed directly to calculate sampling errors. However, analytical measures approximate the U.S. relative sampling errors at around five percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

## Prices Paid by Farmers

The September Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) at 176 (1990-92=100), is unchanged from August 2009 but down 7.4 percent from September 2008.

PRODUCTION INDEX: The September index, at 177, decreased 0.6 percent from last month and 12 percent from last year. Lower prices in September for complete feeds, mixed fertilizer, herbicides, and feeder cattle more than offset higher prices for concentrates, LP gas, feeder pigs, and potash \& phosphorus.

Feed: The September index, at 185, decreased 1.1 percent from August and 11 percent from last September. Since August, lower prices for complete feeds, feed grains, hay \& forages, and supplements offset a higher price for concentrates.

Livestock \& Poultry: The September index, at 110, decreased 0.9 percent from last month and 12 percent from last year. Since August, lower feeder cattle prices more than offset higher prices for feeder pigs. The September feeder cattle price, at $\$ 94.70$ per cwt, is down $\$ 1.90$ per cwt from the August price. September feeder pigs averaged $\$ 58.00$ per cwt, up $\$ 13.00$ per cwt from August.

Fertilizer: The September index, at 261, is down 2.6 percent from August and 46 below percent September a year ago. Since August, lower prices for mixed fertilizer and nitrogen more than offset higher prices for potash \& phosphorus.

Chemicals: The September index, at 127, decreased 6.6 percent from August and 11 percent from last September. Compared with last month, prices are lower for herbicides, insecticides, and fungicides/other.

Fuels: The September index, at 247, is up 2.5 percent from a month earlier but 34 percent below September 2008. Compared with last month, higher LP gas prices more than offset lower prices for gasoline.

Machinery: The September index, at 228, increased 0.4 percent from August and is 6.5 percent above last September. Compared with last month, prices are higher for self-propelled machinery and tractors.

CONSUMER PRICE INDEX: The August 2009 Consumer Price Index, as issued by the Bureau of Labor Statistics, for all urban consumers (CPI-U) increased 0.2 percent before seasonal adjustment to a level of 215.834 (1982-84=100). The July index is 215.351 . For the 12-month period ending in August, the overall index decreased 1.5 percent.

${ }^{1}$ Effective January 1995, prices of commercial prepared feeds are based on current U.S. prices received for corn, soybeans, alfalfa hay, and all wheat.
${ }^{2}$ The price of commercial prepared broiler feed is based on current U.S. prices received for corn and soybeans. The modeled feed uses 58 percent corn and 42 percent soybeans.
${ }^{3}$ The price of commercial prepared layer feed is based on current U.S. prices received for corn and soybeans. The modeled feed uses 75 percent corn and 25 percent soybeans.
${ }^{4}$ The price of commercial prepared dairy feed is based on current U.S. prices received for corn, soybeans, and alfalfa. The modeled feed uses 51 percent corn, 8 percent soybeans, and 41 percent alfalfa.
${ }^{5}$ The price of commercial prepared turkey feed is based on current U.S. prices received for corn, soybeans, and wheat. The modeled feed used 51 percent corn, 28 percent soybeans, and 21 percent wheat.

## Reliability of Prices Paid Estimates

Definition: Prices paid by farmers represent the average costs of inputs purchased by farmers and ranchers to produce agricultural commodities. Conceptually, the average price when multiplied by quantity purchased should equal total producer expenditures for the item.

Survey Procedures: The prices paid data are obtained from establishments that sell goods and services to farmers and ranchers. Annually, about 8,500 firms are randomly selected from lists by type of item sold with an average response rate in the range of 75-80 percent. Firms are asked to report the price for the specified item "most commonly bought by farmers" or that was the "volume seller". Approximately 135 items are surveyed each March to represent all production input items purchased. The survey reference period for most items is the 5 business days centered around the 15 th of the month. Separate prices paid surveys are conducted for agricultural chemicals, fuels, feed, fertilizer, machinery, and seed.

Summary and Estimation Procedures: The annual March Prices Paid Survey is summarized as a nonprobability survey. Average prices reported are aggregated to the region and U.S. level using weights available from expenditure data and other administrative sources. Price recommendations are prepared by the State Field Offices and Headquarters for review by the Agricultural Statistics Board in Washington, D.C. Also, the change in price level for individual items surveyed are combined to the regional and U.S. levels, and are published as prices paid indexes referenced to a specific base period. Prices paid indexes for new autos and trucks, building materials, farm supplies, motor supplies, and marketing containers are updated based on price changes measured in selected Bureau of Labor Statistics (BLS) indexes.

Revisions: Any revisions are published in the monthly and in annual issues of Agricultural Prices. The basis for revision must be supported by additional data that directly affect the level of the estimate. More revisions are likely for March when separate prices paid surveys are conducted, in lieu of BLS indexes, by the USDA to measure price change.

Reliability: Current methods of summarization for the March data are not designed directly to calculate sampling errors. However, analytical measures approximate the U.S. relative sampling errors for major items around 10 percent. Any nonsampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these nonsampling errors.

Program Change: Effective January 1, 1995, the National Agricultural Statistics Service updated the weights and changed the construction of its prices paid and received by farmers indexes. A Federal Register Notice dated October 28, 1994 discussed these program modifications.

A 1990-92 reference and base period replaced the 1977 reference and 1971-73 base weight period. Five-year moving average weights replaced the current fixed 1971-73 base period weights. The 1910-14=100 price indexes, required by statute for computing parity prices, were linked forward based on the changes in the new 1990-92=100 indexes. The new indexes were constructed by multiplying the ratios of the current prices to the base period prices by the moving average weights (adjusted for seasonal marketing patterns for the prices received indexes).

General questions should be directed to Kevin Barnes, Chief, Environmental, Economics and Demographics Branch at (202) 720-6146. Below are the commodity specialists to contact for additional information.

## ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

## INTERNET ACCESS

All NASS reports are available free of charge. For free access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

## E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, Receive reports by Email, click on National or State. Follow the instructions on the screen.

## PRINTED REPORTS OR DATA PRODUCTS

## CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada) <br> Other areas, please call 703-605-6220 FAX: 703-605-6900 <br> (Visa, MasterCard, check, or money order acceptable for payment.)

#### Abstract

ASSISTANCE For assistance with general agricultural statistics or further information about NASS or its products or services, contact the Agricultural Statistics Hotline at 800-727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

# USDA Data Users' Meeting Monday, November 2, 2009 

## Crowne Plaza Hotel Chicago-Metro <br> Chicago, Illinois 60661 <br> (312) 829-5000

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seeks comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at www.nass.usda.gov/forum/ or contact Marjorie Taylor (NASS) at (202) 690-8141 or at marjorie taylor@nass.usda.gov.

This Data Users' Meeting precedes an Industry Outlook Conference that will be held at the same location on Tuesday, November 3, 2009. The Outlook Conference brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Meeting see the Livestock and Marketing Information Center (LMIC) homepage at www.lmic.info or contact Jim Robb at (720) 544-2941 or at robb@lmic.info.

[^0]:    ${ }^{1}$ Ratio of index of prices received by farmers to index of prices paid by farmers.

[^1]:    ${ }^{1}$ Revised historical price indexes for months not shown are available at www.nass.usda.gov.

[^2]:    ${ }^{1}$ Current month prices are mid-month; prices for previous months are for the entire month.
    ${ }^{2}$ Cows, steers and heifers.

[^3]:    ${ }^{1}$ Entire month.
    ${ }^{2}$ Based on purchases for the first half of the month.
    ${ }^{3}$ Marketings based on a survey of cotton buyers in the major producing States - AL, AZ, AR, CA, GA, LA, MS, NC, TN, and TX.
    ${ }^{4}$ Purchases by private firms and rice (rough equivalent) shipped by cooperatives.

[^4]:    ${ }^{1}$ Entire month.
    ${ }^{2}$ Mid-month.

[^5]:    ${ }^{1}$ Monthly farm marketings, based on a sample survey, as a percent of total used for calculating marketing year average prices.

[^6]:    ${ }^{1}$ Second year.
    ${ }^{2}$ Price not published to avoid disclosure of individual firms.
    ${ }^{3}$ Insufficient sales to establish a price.

[^7]:    ${ }^{1}$ Revised historical price indexes for months not shown are available at www.nass.usda.gov.
    ${ }^{2}$ Weights may not add due to rounding.
