Field Crops: Final Estimates by States, 1992-97, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 947.

Introduction: This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 1992 through 1997. Acreage, yield, and production data were published during calendar years 1993-98 in periodic ASB reports. Data included in this publication provide an historic record and a benchmark for current estimates.

Procedures: Revisions were made after a thorough review of the original survey data and all additional data now available, including the 1997 Census of Agriculture. Other data series considered included United States Department of Agriculture farm program administrative records, shipment records, exports, and quantity processed information. The ASB evaluated the current acreages with historic totals to ensure comparability with past Census relationships. Production, beginning stocks, and recorded disappearance were compared to historic totals for evaluating ending stocks. The 1993-1997 estimates shown herein are considered final and will not be revised again.

At the National level, all revisions to estimates of major crops (corn, soybeans, all wheat) were less than 2 percent.

Revisions were made in the 1993, 1994, 1995, 1996, and 1997 corn estimates. The 1997 production was revised down 1.7 percent with most of the decrease being attributed to the medium and smaller producing States. The 1996 and 1994 production estimates were revised down 0.7 percent and 0.5 percent, respectively. The 1995 production was revised up 0.4 percent. As was the case with 1997, most of the revisions were made in the smaller producing States. The 1993 production was revised up fractionally.

The 1997 soybean production was revised down 0.5 percent and the 1996, 1995, 1994, and 1993 production estimates were revised down 0.1 percent each. Revisions were made primarily in the smaller producing States.

The all wheat production estimates for 1997 were revised down 1.8 percent and the 1996 production was revised down 0.3 percent. Changes in harvested acres and yields were made to both large and small States. The 1995 production was revised up slightly.

Historic Estimates: Final estimates of Field Crops in earlier years are available in Statistical Bulletins No. 896 for 1987-92, No. 793 for 1983-87, No. 708 for 1978-82, No. 646 for 1974-78, No. 582 for 1969-74, No. 498 for 1964-69, No. 384 for 1959-64, No. 290 for 1954-59, No. 185 for 1949-54, and No. 108 for 1944-49.

Other Statistical Bulletins: The National Agricultural Statistics Service will issue a series of twenty bulletins in 1998-99 containing final estimates for agricultural commodities based on the review of the 1997 Census of Agriculture and other information. The product number, bulletin title, and tentative release dates are as follows.

Electronic Publications: These bulletins will be available **FREE OF CHARGE** on the Internet from the NASS Home Page at: <http://www.usda.gov/nass/>, in either text or PDF format. From the Homepage select "Historic Data," then "Statistical Bulletins."

Internet Published Estimates Data Base: Selected historical State and U.S. information is now available in an online data base via the Internet **free of charge**. County information will be available by mid 1999. The database allows custom extracts based on commodity, year, state and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Home Page at: <http://www.usda.gov/nass/>.

Printed Copies: Printed copies of the bulletins may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779. Costs for printed copies of the publications range from \$15.00 to \$20.00. Visa, MasterCard, check, or money order are acceptable for payment.

Agricultural Census Publications: The Volume 1, Geographic Area Series publication containing the United States Summary provides National data and selected data for each State. Separate State reports present statistics for the entire State and each county. Census reports cover the 1997 production year, with comparative data for earlier census years. The 1997 Census of Agriculture Geographic Area Series products, including all manipulable data files and Adobe Acrobat (PDF) files of the printed reports, will be available on March 20, 1999 via the Internet at <http://www.usda.gov/nass/>. The information is also available on CD-ROM, and in printed publications. Printed copies of the Census publications and CD-ROM's may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779.

Assistance: For more information pertaining to this bulletin, call Crops Branch at (202) 720-2127. For assistance with general agricultural statistics or further information about NASS or its products and services, contact the **Agricultural Statistics Hotline** at **1-800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. ¹ Crops included are corn, sorghum, oats, barley, winter wheat, rye, durum wheat, other spring wheat, rice, soybeans, peanuts, sunflower, cotton, dry edible beans, potatoes, and sugarbeets. Harvested acreage is used for all hay, tobacco, and sugarcane in computing total area planted. Includes double cropped acres and unharvested small grains planted as cover crops.

² States do not add to U.S. due to sunflower and sugarbeet unallocated acreage.
